WEIGHT RECOMMENDATION NORDIC SKIS

On every Worldcup ski we make there is a sticker that shows the important technical information about that ski. This includes its ideal weight range, based on the ski's specific length and flex. There are two different stickers, one for Classic and one for Skate:

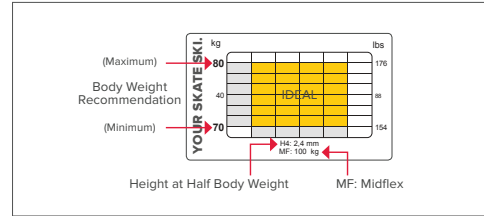

CLASSIC

This sticker includes a color coding for different conditions: cold (blue ■), universal (yellow ■) or warm (red ■). The sticker shown below is for a cold ski which is recommended for skiers between 72 – 94 kg, perfectly suitable for 80 – 90 kg. In addition, there's a special sticker for Skintec (colour coding grey ■).

SKATE

The sticker shown below is for a ski which is recommended for skiers between 70 – 80 kg, or 154 – 176 lbs.
